Here's *WHY* You'll Want to Join Us in 2018

HIGHLY PRACTICAL

Practical, easy-to-implement strategies. You get countless strategies you can use immediately with little or no practice.

IN-DEPTH

Only in-depth trainings give you the skill-building, details & self-confidence to immediately implement achievement-boosting strategies in your workplace.

RESEARCH-BASED

Many claim to be “brain-based” or “research-based” but we actually show you the neuroscience. You get to see the scientific peer-reviewed studies you can trust.

CUTTING-EDGE LEADERSHIP

You get the world's leader in brain-based learning since 1995. We train more people in the world than anyone else.

GUARANTEED

Satisfaction guarantee or your money back. We offer it so you'll be confident we stand behind what we do. If you're ever not satisfied, it costs you nothing.

Get practical tools for teaching, and become energized about education again!

“I was impressed with the many strategies that I’ll take back to school. I thought it was phenomenal and will have a huge, immediate impact on my students and the staff I work with! Change nothing!”

– Mr. Fisher, Amherst, NY.

Brain-Based Training for Change Agents

CURRICULUM AND COURSE OUTLINE

DAY 1

Today introduces each of the 7 powerful "Game-changing" factors.

Learning is far more effective when "layered" than a "one and done" approach.

We introduce each of items below and their value to student achievement.

- Mindsets Changed (staff & students)
- School culture built
- Sell the dream (the upward narrative)
- Foster relationships (at all levels)
- Focus on staff building student achievement
- On-going PD and learning transfer
- Resource management (time & people)

DAY 2

Today we dig deeper into each of the 7 change area factors listed under Day 1. Practice and discussion will help everyone layer the learning. Each person will gain 1-3 additional strategy tools for each of items below.

DAY 3

On our last day, we go even further into each of the seven game changers listed above. We focus on practice and confidence building. Each participant will have at least 3 reliable strategies for each of these 7 factors. Everyone leaves with an action plan, prioritized for maximum impact and ease of implementation.

HOW YOU CAN GET AN AMAZING SURE-FIRE BOOST IN ACHIEVEMENT

Join us for an engaging, fast-moving, results-oriented program that's the only one of its kind. You can learn to change your teaching and school environment to successfully reach your students of poverty.

This remarkable and practical program reveals the startling links between the latest brain/mind research and the proven strategies to reach today's kids.

Here's your opportunity. Attend the highly engaging, classroom-practical, research-based event that can boost attendance, exceed AYP, and turn your school into a high-performance, blue-ribbon winning success story using 100% research-based strategies. Now it's time. Time to stop wishing and time to get started. Take advantage of this startling new research. Get trained by the original, brain-based trainer that is making a difference in the lives of thousands.

CYNICISM AMONG SOME EDUCATIONAL LEADERS

Listen, if your students come from poverty, you have unique learning, social and behavior challenges. After all, we know the human brain is just as vulnerable to negative factors as it is receptive to positive factors. Unfortunately, there's a cynicism among some educational leaders that says, "I won't be at this school much longer. Besides, there's not much I could do anyways."

Get the training to succeed in reaching this group of kids.

They might be right about leaving their school soon. But they're dead wrong in thinking there's not much they can do.

It's easy to look at the statistics and just give up. But do not give up! There is good news. The brain can also change for the good. I have done my homework and I have isolated the factors that matter most. But what was more exciting was to visit the schools that were succeeding with kids from poverty.

Who are you to say schools can't turn kids around who come from poor families? It can be done, and it is being done every single day. Join us for this training event, and make a difference in their lives. ♦
